

Quarterly Opioid Situation Report

Grey Bruce, Apr-June 2026

The **Opioid Situation Report for April to June 2026** outlines details of the reports of suspected opioid related overdoses received through the Grey Bruce Early Warning System. For this system, reports of suspected opioid-related events are sent to Public Health primarily from EMS, plus Police, Fire, and our 211 *Report a Bad Drug* Online Form/Call-in process. If warranted, an alert designed to advise the community of potential increased risk related to opioids in the area is issued to community partners and the general public to ensure a rapid, coordinated, multisector response to local opioid-related events.

Timeframe	# of Opioid-related Overdoses	# of Opioid-related Fatalities	# of Alerts	# of Media Releases
Apr-June 2025	16	3	2	0
Apr-June 2026	51	2	3	0
