

## Reportable Diseases of Public Health Significance

The following diseases and their etiologic agents are reportable to Public Health as per Ontario Regulation 135/18 under the *Health Protection and Promotion Act*. Please report all suspected and confirmed cases to Grey Bruce Public Health.

**Diseases with an asterisk (\*) and bolded should be reported immediately by telephone and fax.**

- **Regular Office Hours** (Monday-Friday, 8:30am-4:30pm) call 519-376-9420 ext. 6.
- **After Hours** call 519-376-5420.

Other diseases should be reported within one business day. Lab reports can be faxed to 519-376-4152. Verbal reports (e.g. symptom based or suspect case reporting) can be reported by phone to 519-376-9420 ext. 6.

Acquired Immunodeficiency Syndrome (AIDS)	<b>* Food poisoning, all causes</b>	<b>* Pertussis (Whooping Cough)</b>
Acute Flaccid Paralysis	<b>* Gastroenteritis, Outbreaks in institutions and public hospitals</b>	<b>* Plague</b>
Adverse events following immunization (AEFIs)	Giardiasis	Pneumococcal disease, invasive
Amebiasis	Gonorrhoea	<b>* Poliomyelitis, acute</b>
Anaplasmosis	<b>* Group A Streptococcal disease, invasive (iGAS)</b>	Powassan Virus
<b>* Anthrax</b>	Group B Streptococcal disease, neonatal	Psittacosis/Ornithosis
Babesiosis	<b>* Haemophilus influenzae disease, all types, invasive</b>	Q Fever
Blastomycosis	<b>* Hantavirus pulmonary syndrome</b>	<b>* Rabies (in humans)</b>
<b>* Botulism</b>	<b>* Hemorrhagic fevers, including:</b>	<b>* Respiratory infection outbreaks in institutions and public hospitals</b>
<b>* Brucellosis</b>	<b>* • Ebola virus disease</b>	<b>* Rubella</b>
Campylobacter enteritis	<b>* • Marburg virus disease</b>	Rubella, congenital syndrome
Carbapenemase-producing Enterobacteriaceae (CPE) infection or colonization	<b>* • Lassa Fever</b>	Salmonellosis
Chancroid	<b>* • Other viral causes</b>	<b>* Shigellosis</b>
Chickenpox (Varicella)	<b>* Hepatitis, viral</b>	<b>* Smallpox and Orthopoxviruses including Mpox</b>
Chlamydia trachomatis infections	<b>* • Hepatitis A</b>	Syphilis
<b>* Cholera</b>	• Hepatitis B	Tetanus
<b>* Clostridium difficile Infection (CDI) outbreaks in public hospitals</b>	• Hepatitis C	Trichinosis
<b>* Coronavirus, novel including</b>	<b>* Influenza, novel</b>	<b>* Tuberculosis</b>
<b>* • SARS</b>	Influenza, seasonal	<b>* Tularemia</b>
<b>* • MERS</b>	Legionellosis	Typhoid Fever
• COVID-19	Leprosy	<b>* Verotoxin-producing E. coli infections (O157:H7 and other serotypes associated with serious disease), and indicator conditions, including Hemolytic Uremic Syndrome (HUS)</b>
Creutzfeldt-Jakob Disease, all types	Listeriosis	West Nile Virus illness
Cryptosporidiosis	Lyme disease	Yersiniosis
Cyclosporiasis	<b>* Measles</b>	
<b>* Diphtheria</b>	<b>* Meningitis, acute</b>	
Echinococcus multilocularis infection	<b>* • Bacterial</b>	
Encephalitis, including:	• Viral	
• Primary, viral	• Other	
• Post-infectious	<b>* Meningococcal disease, invasive</b>	
• Vaccine-related	<b>* Mumps</b>	
• Subacute sclerosing panencephalitis	Ophthalmia neonatorum	
• Unspecified	<b>* Paralytic Shellfish Poisoning</b>	
	Paratyphoid Fever	

For questions or guidance related to Reportable Diseases, please contact Grey Bruce Public Health's Infectious Diseases team at 519-376-9420 ext. 6 or [infectiousdiseases@publichealthgreybruce.on.ca](mailto:infectiousdiseases@publichealthgreybruce.on.ca). Information on reportable diseases including case definitions are available in the [Ministry of Health's Infectious Diseases Protocol](#).
