RE: 2024/2025 COVID-19 Vaccine Program Update

Dear Health Care Provider/Health Care Setting/Congregate Living Setting,

The purpose of this memo is to provide you with an update on COVID-19 vaccination for spring 2025.

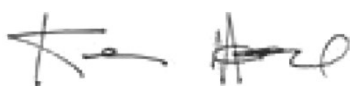

In accordance with the recent release of the National Advisory Committee on Immunization (NACI) recently release [Guidance on the use of COVID-19 vaccines for 2025 to summer 2026](#) the Ontario government will be implementing the following annual COVID-19 vaccine program based on provincial epidemiology:

- In fall 2024, unimmunized individuals or those that did not complete their primary series should have finished their primary series. All other individuals should have received one dose of COVID-19 vaccine.
- In spring 2025, previously immunized high-risk populations who have completed their primary series should receive an additional dose of COVID-19 vaccine.

For a COVID-19 Program factsheet, please visit [COVID-19 Vaccine Program | ontario.ca](#).

I would like to acknowledge and thank you for your valued efforts and support in the delivery of the COVID-19 vaccine program in Ontario.

Sincerely,

Kieran Michael Moore, MD, CCFP(EM), FCFP, MPH, DTM&H, FRCPC FCAHS
Chief Medical Officer of Health
